

**VETERINARY HEALTH CERTIFICATE
EXPORT OF DOGS, CATS AND FERRETS TO SINT MAARTEN**

I. ORIGIN

Country of Export: CANADA

Issuing Authority: CANADIAN FOOD INSPECTION AGENCY

Name of owner or representative: _____

Address: _____

II. IDENTIFICATION OF THE ANIMAL(S)

Species	Breed	Colour	Sex	Date of birth (yyyy/mm/dd) ¹	Microchip Number or Tattoo ²

- (1) The minimum age a dog/cat/ferret can be imported into Sint Maarten is fifteen (15) weeks of age.
 (2) The animal(s) must be identified with an International Standard Organization (ISO) microchip or a readable tattoo applied before 2011.

III. HEALTH INFORMATION

I, the undersigned licensed veterinarian, certify that the animal(s) described above:

1. The animal(s) has/have been vaccinated against rabies, no less than 21 days (for primary vaccination³) and no more than 12 months to 36 months (as registered by the manufacturer) at the time of entry into Sint Maarten.
 (3) The rabies vaccination will be considered a primary vaccination if it is the first rabies vaccination the animal has received, or if the animal has been revaccinated after the previous vaccination validity period has expired

Microchip Number or Tattoo ²	Name and Manufacturer of Rabies vaccine	Lot Number and Expiry of product	Vaccination date (yyyy/mm/dd)	Vaccination Validity: From (yyyy/mm/dd) – To (yyyy/mm/dd) ⁴	Previous Vaccination validity expiry ⁽⁵⁾ (yyyy/mm/dd)

- (4) For primary rabies vaccinations, the vaccination validity start date should be at least 21 days after vaccine administration.
 (5) Delete if rabies vaccination is a primary vaccination.

2. **Dog(s)** has/have been vaccinated against Canine Distemper, Hepatitis, Parvovirus, Leptospirosis, and Bordetella.*
Cat(s) has/have been vaccinated against Feline Leukemia, Rhinotracheitis, Calicivirus, Panleukopenia and Pneumonitis.*

* Delete as appropriate for the species being exported

3. The animal(s) has/have been treated with a broad-spectrum treatment against internal and external parasites, including coverage against *Amblyomma sp* and *Boophilus sp.* ticks. The treatment(s) must be valid at the time of entry into Sint Maarten. Details of treatment are indicated in the chart below

Microchip Number or Tattoo ²	Product name	Date of treatment (yyyy/mm/dd)	Validity Period of treatment

4. The animal(s) has/have been clinically examined by a licensed veterinarian prior to departure and was/were found to be healthy, free of infectious, contagious and observable cutaneous diseases to which the species is susceptible. The animals(s) appear fit to travel.
